

The Supplemental Nutrition Assistance Program (SNAP) is the nation's most important anti-hunger program.

Who Does SNAP Reach?

In Fiscal Year 2014, it reached:

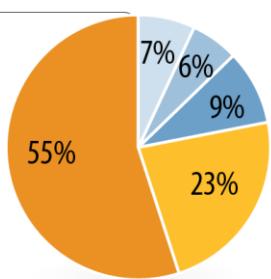

- **3,853,000** Texas residents, or **14%** of the state population (**1 in 7**)
- **46,536,000** participants in the United States, or **15%** of the total population (**1 in 7 people**)

TEXAS	more than 81% of all SNAP participants are in families with children	more than 26% of all SNAP participants are in families with elderly or disabled members	almost 52% of all SNAP participants are in working families
NATIONALLY	almost 70% of all SNAP participants are in families with children	almost 29% of all SNAP participants are in families with elderly or disabled members	more than 42% of all SNAP participants are in working families

The majority of SNAP recipients in Texas are children, elderly, or disabled

- Children
- Adults living with children
- Elderly
- Nondisabled, non-elderly adults not living with children
- Disabled adults

Source: CBPP analysis of data from USDA Food and Nutrition Service, FY 2013

In Texas many households still struggle to put food on the table:

- **18.0%** of households were “food insecure,” or struggled to afford a nutritionally adequate diet, in 2011-2013.
- **4.6%** of the population was unemployed in December 2014.
- In 2013, average income in Texas was **3.2% below** the 2007 level.
- **17.5%** of the population lived below the poverty line in 2013.
- **24.8%** of children lived below the poverty line in 2013.
- **11.0%** of elderly lived below the poverty line in 2013.

SNAP reaches needy populations: **75%** of eligible individuals participated in SNAP in Texas in 2012. In Texas in FY 2013, **81%** of households receiving SNAP had income below the poverty line (about \$23,850 for a family of four in 2014), and **44%** of households were in deep poverty, with income below 50% of the poverty line.

SNAP kept **469,000** people out of poverty from 2009-2012, including **249,000** children.

What Benefits Do SNAP Recipients Receive?

SNAP targets benefits according to need. Very poor households receive more SNAP benefits than households closer to the poverty line since they need more help affording an adequate diet.

Households receive SNAP benefits on electronic benefit transfer (EBT) cards, which can be used only to purchase food at one of the 252,900 authorized retail locations around the country, including 18,400 in Texas.

	October 2013	November 2013-September 2014
Average monthly SNAP benefit for each household member:	\$123*	\$115
Average monthly SNAP benefit per person per meal:	\$1.37*	\$1.27

*This amount includes the temporary boost in benefits provided by the economic recovery legislation, which expired in November 2013.

Average Monthly SNAP Benefit By Demographic Group, FY 2013, Texas

Source: U.S. Department of Agriculture, Office of Research and Analysis, "Characteristics of Supplemental Nutrition Assistance Program Households: Fiscal Year 2013"

Note: These amounts also include the temporary boost from the Recovery Act. In FY 2014, benefits will be lower by an average of \$8-10 per person.

How Does SNAP Benefit the Economy?

Moody's Analytics estimates that in a weak economy, \$1 in SNAP benefits generates \$1.70 in economic activity.

SNAP benefits pumped about **\$5.3 billion** into Texas's economy in 2014.

For more information on the SNAP program, including Texas-specific information, please see:
