*HUD recently conducted a Random Digit Dialing survey of rents in this area. However, the results of this survey were not available at the time that final 2005 FMRs were published. Housing agencies in this area have the option of using either 2004 or final 2005 FMRs until HUD publishes revised final FMRs based on the RDD survey.

Counties in yellow have a decrease of at least 9.1% in the FMR for at least one bedroom size shown. Decreases of this size are particularly significant because housing agencies are allowed to set payment standards (the maximum amount of rent a voucher can cover) between 90% and 110% of FMR. In areas where the FMR decrease is 9.1% or more (that is, where 110% of the 2005 FMR is less than 100% of the 2004 FMR), housing agencies will have to reduce the amount of rent vouchers can cover unless the agency gets special approval from HUD or happens to have a current payment standard below 100% of the FMR.
