SOURCE: Based on a national survey conducted by the Center on Budget and Policy Priorities for KCMU, 2008.

The numbers in the table reflect the net change in actions taken by states from year to year. Specific strategies may be adopted and retracted by several states during a given year.

1. In **Tennessee**, enrollment was closed to some but not all parents eligible under the state's Medicaid waiver program.
2. In **Tennessee**, enrollment was closed to some but not all parents eligible under the state's Medicaid waiver program. Enrollment was closed in the Medicaid waiver programs in **Oregon** and **Utah** as well.
3. In **Washington**, enrollment was closed under the state-funded program during the survey period, but was open as of July 2004. Enrollment was also closed in **Pennsylvania's** state-funded program.
4. Enrollment is closed in **Oregon's** Medicaid waiver program. In **Utah**, parents may only enroll in the state's waiver program during open enrollment periods.
5. In **Pennsylvania**, parents may only enroll in the state-funded program during open enrollment periods. **Washington** relies on a system of "managed enrollment" though which parents who are determined eligible for the program may be required to wait for space to open in the program before being enrolled.
