Republican Bill Will Raise Costs, Poverty, and Hunger, Take Health Coverage Away From Millions

Statement of Sharon Parrott on Passage of Republican Reconciliation Bill

House and Senate Republicans have now passed a bill that will raise families' food and health care costs, increase poverty and hunger, take health coverage away from millions of people, and drive up deficits — all to give costly tax cuts to the wealthy and corporations.

Congressional Republicans and the President now own its impact. Unfortunately, it is their constituents who will pay the price for their poor leadership.
