

California Housing Choice Vouchers Fact Sheet

The Housing Choice Voucher Program is the nation's largest rental assistance program. More than 5 million people in 2.2 million low-income households use vouchers.

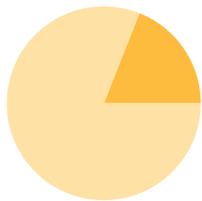

710,900

people in **304,500 California** households use a voucher to afford decent, privately owned housing.

64% are seniors, children, or people with disabilities.

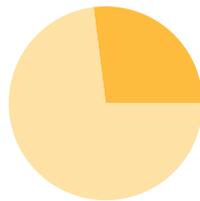

...but **3** out of **4 low-income***

California households pay too much for rent and do not receive a voucher or other federal rental assistance due to limited funding.

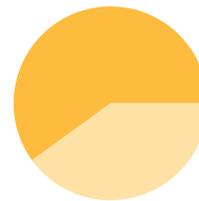

19% of voucher recipients are elderly

Vouchers help **132,400** of California's seniors afford decent, modest housing and age in place.

27% of voucher recipients are disabled

Vouchers enable **189,500** people with disabilities in California to live independently in their home communities.

60% of voucher recipients are in families with children

109,400 families with **236,800** children in California use a voucher to keep a roof over their heads.

Vouchers Fight Homelessness

On a single night in 2016, there were **118,100** people experiencing homelessness in California, including **31,500** adults with disabilities who have been homeless for long or repeated periods. An estimated **494,600** California children—including **243,300** children under 6—were living in shelters, on the street, doubled up with other families or in hotels or motels during the 2015-2016 school year.

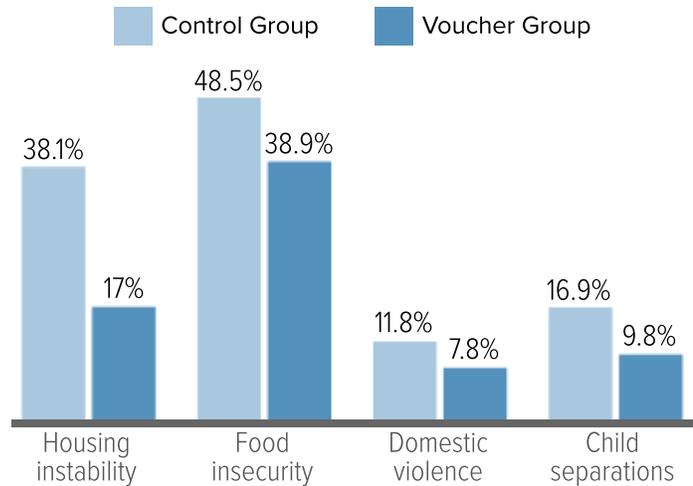

Housing vouchers sharply reduce homelessness and housing instability, numerous studies show.

If Congress does not increase renewal funding to cover changes in incomes and rising rents, the number of vouchers available to **California** families will fall, and homelessness and housing instability among low-income residents will worsen.

Vouchers Strengthen Families

Vouchers make housing affordable, reduce housing instability, and help children to grow up healthier. Children in homeless families that receive housing vouchers change schools less often and are 42% less likely to be separated from their families and placed into foster care. Their families are also 20% less likely to be food insecure and 34% less likely to experience domestic violence.

Vouchers Reduce Hardship for Homeless Families

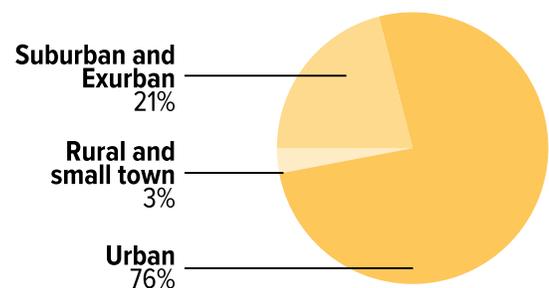

Vouchers support working families: **70%** of non-disabled, working-age **California** voucher households had at least one member who was working in 2016 or had worked recently.

Vouchers Strengthen Communities

Property owners in California received **\$3.1 billion** in voucher assistance payments in 2016. This helped them pay property taxes and prevent blight by maintaining their properties in good condition. Vouchers support all types of California communities, including **23,900** people in rural areas and small towns.

Vouchers Help Renters in All Types of California Communities

Vouchers Expand Opportunities for Children

Vouchers enable children to grow up in better neighborhoods and thereby enhance their chances of long-term health and success. **45,000** California families use their vouchers to live in neighborhoods where the poverty rate is below 20%.

Children in families that use housing vouchers to move to better neighborhoods are more likely to attend college, less likely to become single parents, and earn more as adults.
