

The Supplemental Nutrition Assistance Program (SNAP) is the nation's most important anti-hunger program.

Who Does SNAP Reach?

In Fiscal Year 2014, it reached:

- **230,000** Utah residents, or **8%** of the state population (**1 in 13**)
- **46,536,000** participants in the United States, or **15%** of the total population (**1 in 7 people**)

UTAH	almost 80% of all SNAP participants are in families with children	more than 18% of all SNAP participants are in families with elderly or disabled members	more than 49% of all SNAP participants are in working families
NATIONALLY	almost 70% of all SNAP participants are in families with children	almost 29% of all SNAP participants are in families with elderly or disabled members	more than 42% of all SNAP participants are in working families

In Utah many households still struggle to put food on the table:

- **14.3%** of households were “food insecure,” or struggled to afford a nutritionally adequate diet, in 2011-2013.
- **3.5%** of the population was unemployed in December 2014.
- In 2013, average income in Utah was **3.5% below** the 2007 level.
- **12.7%** of the population lived below the poverty line in 2013.
- **14.4%** of children lived below the poverty line in 2013.
- **7.2%** of elderly lived below the poverty line in 2013.

SNAP reaches needy populations: 81% of eligible individuals participated in SNAP in Utah in 2012. In Utah in FY 2013, **85%** of households receiving SNAP had income below the poverty line (about \$23,850 for a family of four in 2014), and **46%** of households were in deep poverty, with income below 50% of the poverty line.

What Benefits Do SNAP Recipients Receive?

SNAP targets benefits according to need. Very poor households receive more SNAP benefits than households closer to the poverty line since they need more help affording an adequate diet.

Households receive SNAP benefits on electronic benefit transfer (EBT) cards, which can be used only to purchase food at one of the 252,900 authorized retail locations around the country, including 1,300 in Utah.

	October 2013	November 2013- September 2014
Average monthly SNAP benefit for each household member:	\$123*	\$114
Average monthly SNAP benefit per person per meal:	\$1.37*	\$1.27

*This amount includes the temporary boost in benefits provided by the economic recovery legislation, which expired in November 2013.

Average Monthly SNAP Benefit By Demographic Group, FY 2013, Utah

Source: U.S. Department of Agriculture, Office of Research and Analysis, "Characteristics of Supplemental Nutrition Assistance Program Households: Fiscal Year 2013"

Note: These amounts also include the temporary boost from the Recovery Act. In FY 2014, benefits will be lower by an average of \$8-10 per person.

How Does SNAP Benefit the Economy?

Moody's Analytics estimates that in a weak economy, \$1 in SNAP benefits generates \$1.70 in economic activity.
