## Supplemental Nutrition Assistance Program

January 15th, 2021

The Supplemental Nutrition Assistance Program (SNAP) is the nation's most important anti-hunger program.

### Whom Does SNAP Reach?

In fiscal year 2019,<sup>a</sup> it reached:

- **85,000** Alaska residents, or **12%** of the state population (**1 in 9**)
- **38,000,000** participants in the United States, or **12%** of the total population (**1 in 9**)

<b>ALASKA</b>	more than <b>67%</b> of SNAP participants are in families with children	more than <b>30%</b> are in families with members who are elderly or have disabilities	almost <b>42%</b> are in working families
<b>NATIONALLY</b>	more than <b>66%</b> of SNAP participants are in families with children	almost <b>36%</b> are in families with members who are elderly or have disabilities	almost <b>42%</b> are in working families

#### Most SNAP Participants in Alaska Are Poor

Share of participants by household income, FY 2019

- Income at or below 50% of poverty
- Income between 51-100% of poverty
- Income above 100% of poverty

#### Many Alaska households struggle to put food on the table. The most recent data show:

- **10.7%** of households were “food insecure,” or struggled to afford a nutritionally adequate diet.
- Median income was **5.1% below** the 2007 level, after adjusting for inflation.
- **10.1%** of the population lived below the poverty line.
- **13%** of children lived below the poverty line.
- **6.9%** of elderly lived below the poverty line.

**SNAP reaches needy populations:** **76%** of eligible individuals participated in SNAP in **Alaska** in 2017, and **59%** of eligible workers participated.

SNAP kept **23,000** people out of poverty in **Alaska**, including **11,000** children, per year between 2013 and 2017, on average. (These figures adjust for households' underreporting of benefits.)

## What Benefits Do SNAP Recipients Receive?

SNAP targets benefits according to need. Very poor households receive more SNAP benefits than households closer to the poverty line since they need more help affording an adequate diet. SNAP recipients in Alaska received \$171.09 million in benefits in 2019.<sup>a</sup>

Fiscal Year 2019

Average monthly SNAP benefit for each household member:

**\$181**

Average SNAP benefit per person per meal:

**\$1.84**

## Average Monthly SNAP Benefit By Demographic Group, FY 2019, Alaska

All Households

\$368

Households with children

\$598

Working households

\$506

Households with seniors

\$229

Households with non-elderly disabled individuals

\$224

## How Does SNAP Benefit the Economy?

Moody's Analytics estimates that in a weak economy, \$1 in SNAP benefits generates \$1.70 in economic activity. Households receive SNAP benefits on electronic benefit transfer (EBT) cards, which can be used only to purchase food at one of about 247,600 authorized retail locations around the country, including some 500 in Alaska.

**Notes:** Due to a higher cost of living, Alaska has different eligibility, deduction, and benefit levels than the continental U.S. Alaskan SNAP participation declines annually following the increase in income residents experience from the receipt of dividends from the Alaska Permanent Fund. In addition to SNAP, in FY 2019, based on preliminary data, an average of about 600 individuals per month in Alaska received benefits through the Food Distribution Program on Indian Reservations (FDPIR) which is a federal program that provides commodity foods to low-income households, including the elderly, living on Indian reservations, and to Native American families residing in designated areas near reservations and in the State of Oklahoma.
