

# Illinois TANF Spending

In 2016, Illinois spent about \$1.1 billion in federal and state funds under the Temporary Assistance for Needy Families (TANF) program. It spent 64 percent of these funds on core welfare reform activities, which include basic assistance, work activities and supports, and child care. In 2016, Illinois was one of the highest investors in child care of all states, but spent below average on basic assistance and work activities.

## TANF Provides a Safety Net for Few Poor Families

In 2016, for every 100 poor families with children in Illinois, only 16 received TANF cash assistance, down from 33 in 2001. During this time, Illinois slashed its investments in basic assistance and work activities.

## Federal TANF Allocations and State Maintenance of Effort (MOE) Requirements

- The annual federal TANF block grant has been frozen since its creation and lost more than a third of its value between 1997 and 2016 due to inflation.
- Since unspent block grant funds can be carried over to future years, a state may spend more or less than its federal block grant allocation in any given year. In 2016, Illinois spent \$538 million in federal TANF funds.
- Every year each state must also spend, from its own funds, at least 80 percent of its historical spending on poor families with children. (In some cases, this “MOE” requirement can be reduced to 75 percent.) In 2016, Illinois claimed \$570 million in MOE spending.

### Annual TANF Allocations and MOE Obligations for Illinois

<b>TANF block grant amount</b>	\$585 million
