## Federal TANF Allocation and State Maintenance-of-Effort (MOE) Amounts

- In 2019, Missouri was awarded its TANF block grant of \$216 million.
- Since unspent block grant funds can be carried over to future years, a state may spend more or less than its annual block grant allocation in any given year. As of 2019, Missouri has not accumulated any unspent TANF block grant funds.
- Every year each state must also spend, from its own funds, at least 80 percent of its historical spending on poor families with children. (A state may spend more than its minimum.) This “MOE” requirement can be reduced to 75 percent if a state meets specific work participation rate requirements. In 2019, Missouri met these requirements and was subject to the 75 percent MOE obligation.
