In 2021 Nevada spent about $115 million in federal and state funds under the Temporary Assistance for Needy Families (TANF) program. It spent 31 percent of these funds on basic assistance, generally as cash assistance to TANF families.

Federal TANF Allocation and State Maintenance-of-Effort (MOE) Amounts

- In 2021 Nevada was awarded its TANF block grant of $44 million.
- Since unspent block grant funds can be carried over to future years, a state may spend more or less than its annual block grant allocation in any given year. As of 2021, Nevada has accumulated $39 million in unspent TANF block grant funds, equal to 90 percent of its block grant.
- Every year each state must also spend, from its own funds, at least 80 percent of its historical spending on low-income families with children. (A state may spend more than its minimum.) This “MOE” requirement can be reduced to 75 percent if a state meets specific work participation rate requirements. In 2021 Nevada failed to meet these requirements and was subject to the 80 percent MOE obligation.

The annual federal TANF block grant has been frozen since its creation and lost about 47 percent of its value between 1997 and 2021 due to inflation.

Source: The spending data are based on CBPP analysis of U.S. Department of Health and Human Services TANF financial data. Nevada’s TANF block grant amount has been adjusted to exclude Tribal TANF and research expenditures.
