Federal TANF Allocation and State Maintenance-of-Effort (MOE) Amounts

- In 2019, South Dakota was awarded its TANF block grant of \$21 million.
- Since unspent block grant funds can be carried over to future years, a state may spend more or less than its annual block grant allocation in any given year. As of 2019, South Dakota has accumulated \$22 million in unspent TANF block grant funds, equal to 104 percent of its block grant.
- Every year each state must also spend, from its own funds, at least 80 percent of its historical spending on poor families with children. (A state may spend more than its minimum.) This “MOE” requirement can be reduced to 75 percent if a state meets specific work participation rate requirements. In 2019, South Dakota met these requirements and was subject to the 75 percent MOE obligation.
