CBPP uses two-year averages of the poverty data and the TANF-to-poverty ratios to improve the reliability of the data at the state level. Single-year labels represent two-year averages for state data. For example, '2017' represents '2016-2017.' AFDC/TANF caseload data from Department of Health and Human Services and (since September 2006) caseload data collected from state agencies. TANF benefit levels compiled by CBPP from various sources. Benefit levels represented are the maximum benefit for a family of three. The change in the value of the benefits since 1996 is adjusted for inflation using the CPI-U-RS.
