\*HUD recently conducted a Random Digit Dialing survey of rents in this area. However, the results of this survey were not available at the time that final 2005 FMRs were published. Housing agencies in this area have the option of using either 2004 or final 2005 FMRs until HUD publishes revised final FMRs based on the RDD survey.

Counties in yellow have a decrease of at least 9.1% in the FMR for at least one bedroom size shown. Decreases of this size are particularly significan because housing agencies are allowed to set payment standards (the maximum amount of rent a voucher can cover) between 90% and 110% of FMR In areas where the FMR decrease is 9.1% or more (that is, where 110% of the 2005 FMR is less than 100% of the 2004 FMR), housing agencies will have to reduce the amount of rent vouchers can cover unless the agency gets special approval from HUD or happens to have a current payment standard below 100% of the FMR.

Note: For background information on Fair Market Rents and discussion of the implications of Fair Market Rent changes for participants in the Housing Voucher Program and other federal housing programs, see www.cbpp.org/10-12-04hous.htm. For data on Fair Market Rents for other bedroom sizes see www.nlihc.org/2005fmrs/index.htm.
