ESTIMATED VOUCHER CUTS IN 2006 UNDER HOUSE AND SENATE BILLS

Louisiana

The table below displays estimates of cuts in housing voucher assistance that would occur under the 2006 HUD funding bills passed by the U.S. House of Representatives and by the Senate Appropriations Committee. It includes estimates for the state as a whole and for the hardest hit housing agencies in the state (those that would need to cut assistance for at least 50 families or 5 percent of their total). The key statewide findings are:

- Under the **House bill**, Louisiana housing agencies would have to cut **585 vouchers**.
- Under the **Senate bill**, Louisiana housing agencies would have to cut **232 vouchers**.

The cuts would occur at the same time that other agencies would receive more funding than they need to cover vouchers now being used. Indeed, because of a flawed formula the House bill would provide many agencies with more funding than they need to cover all of the vouchers they are legally permitted to issue. Because of this waste, the House bill imposes larger cuts even though it provides more funding for voucher renewals than the Senate bill. If the Senate bill were funded at the same level as the House bill, the voucher cuts would be significantly less than the estimates shown here.

For further information on the potential cuts and other issues raised by the House and Senate bills, see <http://www.cbpp.org/8-24-05hous.htm>.

	Authorized Vouchers	Number of Families Assisted According to Recent Data	Reductions in Families Assisted at Agencies Facing Cuts	
			House Bill	Senate Bill
Louisiana (All Housing Agencies)	38,198	34,404	-585	-232
Housing Agencies Facing Large Cuts				
Avoyelles Parish Police Jury	119	118	-8	-2

Vernon Parish	66	66	-5	-2
West Carroll Parish Policy Jury	65	60	-4	-2
White Castle	14	14	-1	0

Note on Estimates: Estimates are calculated from projections of average voucher costs and the number of authorized vouchers that will actually be in use in 2006 based on data through January 2005. Estimates of cuts in assistance reflect reductions below the average number of authorized vouchers in use from May 2004-January 2005, the most recent 9 months for which data are available. In some cases, housing agencies could respond to funding reductions by cutting assistance through steps other than reducing the number of families assisted, but these steps would also harm low-income families. For example, agencies could reduce the amount of rent a voucher can cover, but this would make it more difficult for families to rent apartments outside the lowest-rent neighborhoods — which often have high crime, poor schools, and few jobs.

For additional information on the assumptions used in making these estimates, see the technical appendix available on the internet at <http://www.cbpp.org/8-24-05hous.htm>. State and local housing agencies may have more recent data, which could be used to make estimates that would more accurately reflect recent conditions in the area. A calculator that would allow local agencies to make estimates based on these data is also available at <http://www.cbpp.org/8-24-05hous.htm>.
